

## RVERS of IDAHO

### May 2026 Newsletter

I hope everyone's spring is treating you well. Pastor Dave has completed his treatments at Mission 43 and he is back home. He requested that the staff there be flooded with thank you cards and letters. The address for anyone to send cards is:

Hana and HBOT Crew

3231 E Barber Valley Dr

Boise, ID 83716. He also requested that I include the following Facebook post

Today my Thanksgiving goes out to the RVers of Idaho formerly Goodsammers. I have been the State Chaplain since 2014 if I remember correctly. During that time I have worked alongside many of them in service projects for vets. I have helped repair many of their rvs. We have learned about swing golf and bean bag baseball. We have done community food drives and sponsored a young girl who was in a tragic accident. At one campout I met a vet whose house burned down the night before. They have always looked for ways to give back. We served at the vets home in Lewiston one year. In the 12 years as Chaplain I have seen many of them pass and new ones join our band of campers. Over the last few weeks Felicia and I have been the recipients of their graciousness and encouragement. They have provided meals, gift cards, financial support. But most importantly their love. My heart has been overwhelmed by their support and love. I want all of you to know this.

Dave was recently cleared to drive, that relieve some of the stress in their lives. Dave, the service you provide to everyone you meet is GREATLY appreciated. You are truly one of a kind!!!

We are looking forward to seeing many of you at Glenns Ferry next month. The registration form will be posted on the website early next week, there was a delay in getting the form out because there were a few details that needed to be cleared up. The Saturday night dinner will be a potluck this time, catering looked too costly. Tentatively RVERS will provide meat and members will bring sides and desserts. Come join us for a great time. The Military Chapter campout at Three Island Crossing the weekend prior to the rally is still on, so if you wish to participate in it get your reservations for it taken care of.

\*\*A reminder, we need a new **Director for RVers of Idaho** this year. If we want to continue the organization someone will have to step up, it's not a difficult position to have. I will give assistance to the person willing to take over.

**RV TIPS:** We have an awning that is one piece and extends over the slide on the door side of our trailer. The awning rubs on the top of the slide, so we put pipe insulation on the top of the slide to protect the awning material. Can't believe the manufacturers would design something like that, maybe Lippert wanted to sell more awning fabric.

**MONTHLY FUNNIES:** A little boy was praying at bedtime. "I can't hear you" said his mother. "I'm not talking to you" the boy whispered back.

Playing hooky is like a credit card. Play now, pay later.

What kind of waves are impossible to swim in? Microwaves.
